Updates to EU Goods Subject to 301 Tariffs

Dear Valued U.S. Import Customer,

On June 26, 2020, the U.S. Trade Representative (USTR) published a notice announcing another review of the action and establishing a docket to review public comments. After this review process of the Section 301 for European goods, the Office of the USTR released an update to certain products and countries that will be applicable to this action.

The USTR stated in a recent press release, "USTR is removing from the tariff list certain products from Greece and the United Kingdom and adding equivalent amount of trade from France and Germany. The changes are modest; the number of products subject to countermeasures will remain unchanged at $7.5 billion and the tariff rates will remain unchanged at 15% for aircraft and 25% for all other products."

On August 18, 2020, notice of the modification was published in the Federal Register 85 FR 50866. The modifications to the products now subject to this action are “effective with respect to goods entered for consumption, or withdrawn from warehouse for consumption, on or after 12:01 a.m. eastern daylight time September 1, 2020.”

Annex 2 covers the descriptive list of changes from Annex 1 of 85 FR 50866 and the complete list with the new changes included.

Thank you for being our Valued Customer. If you have any questions, please do not hesitate to contact your C.H. Robinson commercial representative for further information.

Sincerely,

C.H. Robinson
