

NAVISPHERE[®] INSIGHT

The information you need to make informed business decisions
for global freight forwarding

IMPROVING YOUR SUPPLY CHAIN HAS NEVER BEEN EASIER

With end-to-end supply chain visibility, opportunities naturally emerge. That's why we built Navisphere[®] Insight, our online business intelligence platform that provides a clear picture of your worldwide supply chain—at any given moment. With essential data at your fingertips, vital tools to monitor and improve your global logistics operations give you an information advantage.

AN INTUITIVE, DYNAMIC ANALYTICS PLATFORM

- Locate and analyze all your data in one easy-to-use, universally accessible place.
- View detailed, real-time supply chain information—from broad trends down to the smallest details—across regions, modes, time frames, and more.
- Leverage market-leading technology that proactively identifies efficiencies to help meet your customers' high standards.
