Craft Beverage Modernization Act (CBMA) ACE Deployment

Dear Valued Customer,

As a reminder, effective April 6, 2021 U.S. Customs and Border Protection (CBP) will deploy functionality to the Automated Commercial Environment (ACE) for submission of more robust CBMA data required on import entries of regulated commodities into the United States. CBMA allows for reduced rates or credits on 92 tariff numbers under Chapter 22 of the Harmonized Tariff Schedule (HTS). It is not required to be filed at the time of entry. If CBMA is not requested, the standard tax rates will apply.

CBP will be collecting an additional seven data elements when processing a CBMA claim on an entry or a Post Summary Correction (PSC). Please be sure to communicate this information to your customs broker. The seven data elements required are:

1. Controlled Group Name
2. Foreign Producer Identifier
3. Foreign Producer Name
4. Allocation Quantity
5. Flavor Content Credit Indicator
6. CBMA Rate Designation Code
7. TTB Tax Rate

This change in filing will also allow CBP to validate tax amounts and users will be able to review these data elements in ACE Reports.

Thank you for being our Valued Customer. If you have any questions, please do not hesitate to contact your C.H. Robinson commercial representative for further information.

Sincerely,
C.H. Robinson
