Shippers Interest Insurance

WHAT IS SHIPPERS INTEREST?

Shippers interest is insurance coverage that provides greater protection to shippers. It doesn't require the establishment or acceptance of liability by the carrier. Shippers interest insurance is first party coverage that insures a product's full value when physical loss or damage occurs in transit. The coverage under a typical shippers interest policy is significantly broader than the liability imposed on a motor carrier.

LTL carrier liability

Without shippers interest insurance, carrier liability applies

Carrier liability is subject to the Act of God common law exception

Standard carrier liability will vary and is limited to a per pound amount. Used goods are only \$0.10/lb.
